EDUCATION

Bachelor of Technology in Computer Science and Engineering *2022 – 2026*
GN Groups of Institutes, KP2, Greater Noida (UP) | CGPA: 6.95/10

Class XII – CBSE *2021*
GyanPeethika Senior Secondary School, Ballia (UP)

Class X – CBSE *2019*
Kunwar Convent Sr Sec School, Ballia (UP)

EXPERIENCE

Artificial Intelligence Intern — Codec Technologies *Jul 2025 – Aug 2025*
- Developed an AI Powered Customer Support Chatbot focusing on enhancing customer experience and intelligence automation.

AI/ML Intern — InternPE *Aug 2025 – Sep 2025*
- During this training, I developed an IPL Winning Team Prediction using Machine Learning. This applied a data driven model to analyze team performance and predict match outcomes.

TECHNICAL SKILLS

- **Languages:** Python, C, HTML, CSS, Javascript
- **Libraries/Frameworks:** Matplotlib, Plotly, Seaborn, NumPy, Pandas, Streamlit, FastAPI, React.js
- **Database/Tools:** DBMS, Oracle, MySQL, PostgreSQL
- **Software Tools:** GitHub, VS Code
- **Methodologies:** Design Thinking
- **AI/ML Domains:** NLP, Computer Vision, Machine Learning, Deep Learning, Conversational AI, Predictive Modeling
- **Operating Systems:** Windows, MacOS

RELEVANT COURSEWORK

- Data Structures
- DBMS
- Algorithms
- OOPs
- Computer Networks
- Operating System
- Artificial Intelligence
- Machine Learning

PROJECTS

HireView : AI Powered Mock Interview Platform
Tech Stack — Python, FastAPI, React.js, NLP, TensorFlow/PyTorch, MediaPipe, PostgreSQL, MongoDB
Role — Backend & AI Developer
- Build an AI driven interactive mock interview system capable of generating dynamic, domain-specific interview questions using NLP.
- Implemented real-time evaluation of responses including speech clarity, tone, emotional cues and non verbal behaviour.
- Developed automated feedback engine providing detailed performance reports with personalized improvement suggestions.
- Integrated computer vision models using MediaPipe/OpenCV for facial expression & gesture tracking and designed a client-server architecture with FastAPI backend and React frontend for seamless usage.

FleetLedger – Fleet & Daily Rental Management System
Tech Stack — React.js, TypeScript, Vite, Supabase | GitHub
- Developed a fleet management application to streamline vehicle records, driver management, rental operations, and daily collection tracking.
- Implemented daily bill generation, previous due calculations, payment tracking, and outstanding balance management for rental operations.
- Designed a centralized dashboard to monitor vehicles, drivers, billing records, and payment status.
- Integrated Supabase for backend services and database connectivity to support persistent data management.
- Added invoice generation, PDF download, and WhatsApp sharing workflows to simplify billing and collection processes.

Rental Billing & Management Dashboard
Tech Stack — HTML, CSS, JavaScript, Supabase | Live Project
- Developed a web-based rental billing and management dashboard to streamline monthly rent, electricity, PNG gas, maintenance, and other charge tracking for multiple tenants.
- Implemented automated bill calculation, payment status tracking, pending/paid balances, and monthly billing records through an intuitive dashboard.
- Designed a centralized management interface with tenant-wise billing, invoice generation, and financial summary dashboards to reduce manual record-keeping.
- Integrated Supabase for backend data storage and real-time management of tenant and billing information.
- Built a responsive and user-friendly UI optimized for practical day-to-day property management.

CERTIFICATIONS

- Certified in GENESIS 2023 by IMS Ghaziabad (2023) | Certificate
- AI with ML Technical Workshop at IIT Delhi (2024) | Certificate
- JP Morgan Chase and Co. – Quantitative Research Job Simulation (Apr 2025) | Certificate
- Accenture Nordics – Software Engineering Job Simulation (June 2025) | Certificate
- Artificial Intelligence Intern from Codec Technologies (Aug 2025) | Certificate
- AI/ML Intern from InternPE (Sept 2025) | Certificate
- IBM SkillsBuild in Advanced IT Skills – Certificate Course on Artificial Intelligence, Grade A+, ICT Academy (Feb 2026) | Certificate ID: G-2026-G5440-0025 | Certificate
